October 8, 1987

Mr. Bill Burrows
709 Division Street
Gloucester City, NJ 08030

Dear Mr. Burrows:

This letter will confirm your reception of WWII on August 23, 1987.

WWII is licensed to Shiremanstown/Harrisburg and operates from 6:00 a.m. until local sunset at 720 Khz. Our 2Kw stereo signal serves approximately 2 million people in the Central Pennsylvania, Northern Maryland and West Virginia area. Antenna height is cut to a quarter wave of the operating frequency, which is approximately 347 feet. Our studios are located in Shiremanstown with the transmitter located 1.5 air miles to the south.

At the present time, we are averaging two DX letters per week. It is through reports such as yours that allow determination of our theoretical vs. actual propagation characteristics.

I want to thank you for your time and effort concerning this reception report. It was most appreciated.

Sincerely,

Carl C. Kuehn, II
Chief Engineer
